

COMMUNITY UPDATE: MARCH 20, 2020

RE: FOOD AND OTHER DELIVERY PROCEDURE

Dear Community Member,

Thank you to everyone for heeding the recommendations of the CDC and working to stay home as much as possible and socially distance yourself from others. However, in doing so, we recognize that getting food may become more difficult and we are seeing an increase in the number of deliveries to our residents. We want to let you know that we are currently working through some ideas to get more meals provided to you, as well as possibly grocery delivery options or other food delivery.

Due to the increased number of deliveries to our communities and the risks associated with more individuals entering and exiting, the following policy is in effect immediately:

Until further notice, all deliveries are required to be left in the vestibule. In an effort to protect our residents and staff, delivery personnel will not be permitted to enter the community.

There will be a notice put on the front doors, but please also let the delivery person know if you are getting deliveries to your community. Please note that if you feel this will be a challenge to your ability to obtain food or other necessary supplies and you rely on delivery of meals or other items **please contact your community manager so that we can work out an arrangement to make sure you can meet your needs while keeping our community safe.**

Thank you for helping to reduce the risk of everyone at our communities by limiting your visitors to only essential and meeting any delivery people at the front door.

Stay tuned for more updates on grocery delivery and meal options.

Sincerely,

Tom Getz
